The
Heads-Up THINKING™
Company

CLARK TEAM

Clark maintains an expansive inventory of the latest video and audio technology. When something new comes out, we had it in yesterday. And like all our gear, it will be checked out frontwards and backward by Clark engineers who keep meticulous service and maintenance logs on everything. Our superlative equipment engineering is the main reason why Clark clients don't rent anywhere else.

We have a full-time staff of rental managers, engineers and production professionals ready to provide a custom solution for your project.

HD & 4K CAMERAS

Clark Media specializes in providing HD & 4K equipment for single and multiple camera packages. Clark's approach is to provide a suite of production options that are field tested and proven for today's requirements. And of course, we have all the extras. From multiple HD lens choices, matte boxes and filters to all the necessary engineering support equipment.

MOBILE FLYPACK SYSTEMS

With nearly two-decades of multiple camera productions, we know what works and what doesn't. That's why our engineers have custom design modular systems that are pre-wired and configurable to meet the demands of this type of production. We can scale to any job and setup quickly.

AUDIO & INTERCOM

Clark's Intercom Systems can provide you with everything from a basic RTS 2-Wire intercom to a large custom ADAM Matrix System. Our audio packages range from small Yamaha QL-5 mixers to the powerful Studer Vista-1 consoles. Our extensive inventory provides our clients with flexible solutions to fit their needs.

PRODUCTION TRUCK

There is a new kid in town. Check out our 53' expando production truck with attention to roominess, super quiet audio room, interior temperature evenly balanced, and flexibility to configure the space any way you want it.

We serve nationwide Coast-to-Coast.

Assurance of 24/7 Support

**We provide the very best
in service and technology**

4K, UHD & HD Mobile Solutions

The Heads-Up THINKING™ Company

53' Expando Production Trailer

Seating for 24

SPACE TO SPARE

Sure, you can fit a lot of crew if you pack them in. But, we believe a happy crew will create a great broadcast.

DEEP FREEZE NO MORE

How many times do the EVS operators have to complain about subzero temperatures? Not in here. Its under control.

PITCH PERFECT

This audio suite is not only large and optimized for 5.1 mixing, most importantly, it is quiet. Audio equipment with noisy fans are in a separate room.

FLEXIBLE & FUTURE-PROOF

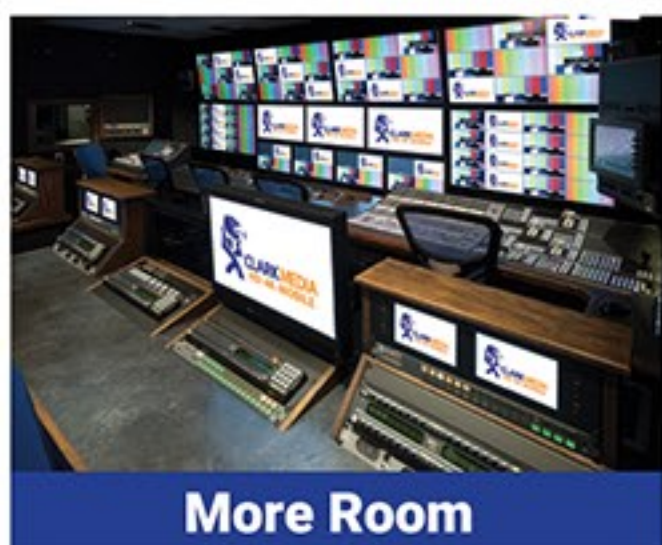

When your setup requires computers, encoders, converters, and other innovative equipment, we have space for that. There is also flexible counter spaces that accommodate keyboards, monitors and support gear. Our configuration affords you all the comforts of a big studio space... on wheels.

We always stay ahead on technical advancements, so that our clients maintain their competitive edge.

55,000 LBS OF ROLLING THUNDER

Clark's high-standards for innovation and quality control are passed onto our mobile expando production trailer. From end-to-end, every consideration for space, temperature control, native 4K signal integrity, removal of noise from power supplies and fans, eliminate light contamination from exterior doors, all lighting optimize for color grading, 4K monitoring throughout, seating for 24 positions and up to 16 4K/HD cameras supported.

More Room

Native 4K

Equipment includes a 5ME Grass Valley Kayenne switcher panel, Sony HDC-4300 4K cameras and other 4K options, 2x EVS XT-4K servers, Imagine Platinum IP-3 router and a Calrec Artemis, 56-fader audio console.

NEWEST EQUIPMENT - SOLID ENGINEERING
